

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Boston Ss: At a Meeting of the Selectmen, October 20<sup>th</sup>, 1778. Present, Mess<sup>rs</sup>. Scollay, Austin, ——— ——— ———

On Thursday the 15.<sup>th</sup> Day of October Information was given the Selectmen that a Cartel Ship from Hallifax with about 400 returned Prisoners, was stoped at the Castle, most of whom were sick, about 30 with the Small Pox & 100 — or more [197.] with a malignant Fever; as this information was given to the Chairman, he thought it needless to call the Board together, but desired Dr. Appleton when he went down to Rainsford Island to call on board & Report, on Fryday last He Reported, the circumstances of the Prisoners to be much as they had been represented, and that speedy help must be had for them or they must all suffer — The Council being acquainted with this information

a Committee of the Board called on the Chairman who attended on said Committee with the Commissary of Prisoners — The Chairman was informed by Mr. Gill one of the Committee that the Commissary of Prisoners was going to the Island to take effectual care that the Prisoners should be provided for — the Commissary was informed by the Chairman that the Hospital at the Island could receive but few of the sick, & that in his Opinion some other place should be taken up for their reception — the Chairman desired the Commissary to let him see him, before he went down & acquainted him where he might be found — wrote an Order to Mr. Hartley of the following purport — Viz<sup>t</sup>. “When the Cartel Ship Commanded by Cap<sup>t</sup>. Moor arrives at the Island, you must take from her into the Hospital, all that have the Small Pox, & as many of the other sick as can be comfortably accommodated in the Hospital, *and no more.*” — The Commissary went down to the Hospital without seeing the Chairman, and returned with the Doctor on Saturday Night — On the Sabbath the Selectmen were required to attend the Council, they accordingly attended at the Council Chamber & were informed that all the Sick were put on shore & had got into the Hospital, where they remained in a suffering condition — they then remonstrated against the Commissarys Conduct in this matter, — & informed the Council that in their Opinion some other place should be provided or the sick would inevitably suffer — the Council immediately ordered the Commissary General to furnish the Selectmen with every thing they may Judge necessary for the relief & comfort of the sick, for the present. Large Supplies were immediately provided & sent down & the Selectmen were informed that the Council would take into consideration, what [198.] had been recommended with respect to another House &c.

This Day agreed with M<sup>r</sup>. Foster & M<sup>r</sup>. ——— to go down to the Hospital as Nurses. M<sup>r</sup>. Foster to have twenty-five Dollars p. Week, the other Woman twelve.

The Sick from on board the last Cartel still remain in the Hospital, and in great want of Nurses.

Agreeable to your request with which I have been favoured, I have attended to the Deeds given by M<sup>r</sup>. Barrel to the Town, and notwithstanding the Question proposed to be “whether the Selectmen have a right to pull down that part of the House which is within the conveyance of M<sup>r</sup>. Barrel and whether the Materials, when the said part of the House is prostrated, are the property of the Town or not”

I have to answer that M<sup>r</sup>. Barrels Deed sells & Releases to the Town that part of the Lot which is cut off by a Line drawn from the Corner of T. Greens House to William Greenleaffs back store; being 12 feet & 6 Inches in front of the House with the Appurtenances, the Habendum of the Deed is to hold the same forever “in Fee Simple to the use of the said Joseph for one Year and then to the use of the Town for ever, on Condition that the same should after one Year be appropriated to the use of a public Street —

The Condition appears to me to be a subsequent Condition and that the Fee was actually vested in the Town, but the Estate may be diverted if the Condition is not fulfilled, and that the Buildings and the Land passed by the Deed and consequently that when the Buildings are pulled down as they lawfully may be, the Materials will belong to the Town —

[264.] I advise however to the laying out the Street before the Buildings are prostrated — if I have not understood the Question, I shall be ready to answer any other that may be proposed —
